Additional information

Provider network coverage

While you are a member of our plan, you must use network providers to get your medical care and services covered at in-network cost-share levels. Exceptions to this include emergency care, urgent care, out-of-area dialysis services, lab services, Medicare-covered preventive screenings, and cases in which the plan authorizes use of out-of-network providers. You can obtain certain covered services from out-of-network providers at different cost-share levels.

Out-of-network/non-contracted providers are under no obligation to treat UCare members, except in emergency situations. Please call our customer service number or see your Evidence of Coverage for more information, including the cost-sharing that applies to out-of-network services.

Case Management

UCare Case Management is a short-term (3 – 6 month) telephonic program for members challenged by multiple chronic health conditions. We offer care management to members with select diagnoses who transition to home from a hospital or skilled nursing facility. The Case Management team consists of registered nurses whose primary focus is on assisting our members with medical case management needs such as health decision support and disease specific education. The case management team also works with internal and external resources to provide the member with needed support and help with attaining best health outcomes. They conduct care management by phone during business hours.

Understanding utilization management

Prior authorization

One way that UCare ensures excellent care is by collaborating with your healthcare professionals to evaluate specific services and procedures. Our goal is to ensure that you receive the best possible care for your individual needs. This Summary of Benefits provides information on the types of care or services that require notification or authorization. It's important to note that this list may change periodically. For instance, some examples of services that require prior approval include spine surgery and home health care.

We offer coverage for certain services listed in the benefits chart only when your doctor or provider obtains advance approval from us. These approved services include inpatient rehabilitation services, genetic and molecular diagnosis tests, lumbar spine surgery, bariatric surgery, vein procedures, bone growth stimulators, and spinal cord stimulators. Other services that require prior authorization and/or notification are marked with a ^{1,2,3} in the chart.

Authorization and notification

One of the ways UCare makes sure you get excellent care is by partnering with your doctors to review certain types of services and procedures. We want you to get the care that is best for your needs.

This Summary of Benefits notes which types of care or services require notification or authorization. This list may change from time to time. Some examples include spine surgery and home health care.

Notification

Hospitals are required to notify UCare if you are admitted to a hospital, long term care facility, or skilled nursing facility. UCare's clinical team will collaborate with your healthcare professionals to ensure you receive the necessary care. If needed, UCare may set up post-hospital care.

Prior authorization/ preservice review

Before any services can be covered, your healthcare provider must obtain approval from UCare. This applies to providers who are part of the UCare network as well as those who are out-of-network. To determine coverage, UCare's clinical team assesses whether the service is medically necessary, appropriate, and effective for your specific needs. Prior authorization, also known as preservice review, requires your provider to submit information to UCare and request approval before you receive the service. If pre-approval is necessary for the specific service, coverage will only be provided if approval has been granted.

Urgent/concurrent review

During your stay in a Long-Term Care Facility or Skilled Nursing Facility, urgent concurrent and concurrent reviews may occur. UCare will assess whether your care needs to continue for a longer duration or if alternative care is necessary.

Post-service review

Post-service review is necessary in case your doctor did not request a pre-service review. It is possible that your claim has already been denied because authorization is required for coverage. Once your doctor submits a review, UCare will carefully evaluate your situation and care plan to ensure that you receive the coverage you are entitled to as a UCare member.

Appeal

If we deny a request made by you or your doctor for medical services or pharmaceuticals, you or your doctor have the option to appeal our decision. At the time of filing an appeal, you or your doctor may include additional documentation that is relevant to your case. Appeal requests undergo a thorough review by physicians, who assess them considering current medical evidence and your benefit plan. If your appeal is turned down, you will receive guidance on how to proceed with a second-level appeal.

Learn more

Go to ucare.org and click on “plan resources.” UCare members can also look up services in their Evidence of Coverage and Annual Notice of Changes documents. These documents note if notification and authorization is required. Every renewal year, members receive an Annual Notice of Changes that explains any changes to their plan benefits.
